# Ransomware can't touch your locked backups.

Automatic backups of your office server, twice a day or more, to two places, one of them locked in the cloud so nobody can delete or encrypt it. Built for offices running QuickBooks and client files.

| Starter | Basic POPULAR | Standard | Business |
|---|---|---|---|
| 100 GB | 250 GB | 1 TB | 2 TB |
| **KES 1,999** | **KES 3,700** | **KES 8,500** | **KES 12,500** |
| per month | per month | per month | per month |
| KES 19,990 a year | KES 37,000 a year | KES 85,000 a year | KES 125,000 a year |

**Pay yearly: 12 months for the price of 10. Each plan covers one computer or server.**

## Every plan includes

- Automatic backups twice a day, or every hour
- Two backup places: locked cloud plus USB, NAS or Google Drive
- 30-day lock: backups can't be deleted, even with your password
- Ransomware and mass-deletion alerts to Dupco
- Weekly full system image on Standard and Business, to get a server running again
- Monthly backup check and restore test by Dupco
- Encrypted with a recovery key only you hold

## Extras and setup

| | |
|---|---|
| Extra computer | **KES 750 / month** |
| Extra 1 TB storage | **KES 4,000 / month** |
| Setup, remote | **KES 5,000 once** |
| Setup, on site | **KES 15,000 once** |

Setup includes installation, a test restore in front of you, and a security check of your server.
